Occupational Employment and Wages in Shreveport–Bossier City – May 2017

Workers in the Shreveport-Bossier City Metropolitan Statistical Area had an average (mean) hourly wage of \$18.94 in May 2017, about 22 percent below the nationwide average of \$24.34, according to the U.S. Bureau of Labor Statistics. Assistant Commissioner for Regional Operations Stanley W. Suchman noted that, after testing for statistical significance, wages in the local area were lower than their respective national averages in 19 of the 22 major occupational groups, including legal; computer and mathematical; and sales and related. Local wage levels in the occupational groups of community and social service, as well as production, were similar to their respective national averages.

When compared to the nationwide distribution, local employment was more highly concentrated in 9 of the 22 occupational groups, including healthcare practitioners and technical; sales and related; and installation, maintenance, and repair. Conversely, 11 groups had employment shares significantly below their national representation, including computer and mathematical; business and financial operations; and office and administrative support. (See [table A](#) and [box note](#) at end of release.)

Table A. Occupational employment and wages by major occupational group, United States and the Shreveport-Bossier City Metropolitan Statistical Area, and measures of statistical significance, May 2017

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Shreveport	United States	Shreveport	Percent difference ⁽¹⁾
Total, all occupations	100.0	100.0	\$24.34	\$18.94*	-22
Management	5.1	4.0*	57.65	44.59*	-23
Business and financial operations	5.2	3.4*	36.70	27.38*	-25
Computer and mathematical	3.0	0.7*	43.18	30.11*	-30
Architecture and engineering	1.8	0.9*	41.44	34.51*	-17
Life, physical, and social science	0.8	0.4*	35.76	30.95*	-13
Community and social service	1.5	1.3*	23.10	22.15	-4
Legal	0.8	0.6*	51.62	36.31*	-30
Education, training, and library	6.1	6.6*	26.67	21.76*	-18
Arts, design, entertainment, sports, and media	1.4	0.7*	28.34	20.19*	-29
Healthcare practitioners and technical	6.0	8.9*	38.83	31.78*	-18
Healthcare support	2.9	3.8*	15.05	12.39*	-18
Protective service	2.4	2.5	22.69	19.22*	-15
Food preparation and serving related	9.3	9.8*	11.88	9.79*	-18
Building and grounds cleaning and maintenance	3.1	3.8*	13.91	10.65*	-23
Personal care and service	3.6	4.5*	13.11	10.41*	-21
Sales and related	10.2	12.6*	19.56	14.82*	-24
Office and administrative support	15.4	14.0*	18.24	15.54*	-15
Farming, fishing, and forestry	0.3	0.1*	13.87	17.57*	27
Construction and extraction	4.0	4.4*	24.01	19.19*	-20
Installation, maintenance, and repair	3.9	4.9*	23.02	19.68*	-15

Note: See footnotes at end of table.

Table A. Occupational employment and wages by major occupational group, United States and the Shreveport-Bossier City Metropolitan Statistical Area, and measures of statistical significance, May 2017 - Continued

Major occupational group	Percent of total employment		Mean hourly wage		
	United States	Shreveport	United States	Shreveport	Percent difference ⁽¹⁾
Production	6.3	5.0*	18.30	19.31	6
Transportation and material moving	7.0	7.3	17.82	15.15*	-15

Footnotes:

(1) A positive percent difference measures how much the mean wage in the Shreveport-Bossier City Metropolitan Statistical Area is above the national mean wage, while a negative difference reflects a lower wage.

* The percent share of employment or mean hourly wage for this area is significantly different from the national average of all areas at the 90-percent confidence level.

One occupational group—healthcare practitioners and technical—was chosen to illustrate the diversity of data available for any of the 22 major occupational categories. Shreveport-Bossier City had 15,490 jobs in healthcare practitioners and technical, accounting for 8.9 percent of local area employment, significantly higher than the 6.0-percent share nationally. The average hourly wage for this occupational group locally was \$31.78, significantly below the national wage of \$38.83.

Some of the larger detailed occupations within the healthcare practitioners and technical group included registered nurses (5,250), licensed practical and licensed vocational nurses (2,500), and pharmacy technicians (570). Among the higher-paying jobs were anesthesiologists and internists, general, with mean hourly wages of \$132.92 and \$98.54, respectively. At the lower end of the wage scale were psychiatric technicians (\$10.58) and veterinary technologists and technicians (\$12.78). (Detailed occupational data for healthcare practitioners and technical are presented in [table 1](#); for a complete listing of detailed occupations available go to www.bls.gov/oes/current/oes_43340.htm.)

Location quotients allow us to explore the occupational make-up of a metropolitan area by comparing the composition of jobs in an area relative to the national average. (See [table 1](#).) For example, a location quotient of 2.0 indicates that an occupation accounts for twice the share of employment in the area than it does nationally. In the Shreveport-Bossier City Metropolitan Statistical Area, above-average concentrations of employment were found in some of the occupations within the healthcare practitioners and technical group. For instance, licensed practical and licensed vocational nurses were employed at 2.9 times the national rate in Shreveport, and nuclear medicine technologists, at 2.5 times the U.S. average. Both Shreveport location quotients were among the highest in all metropolitan areas for these particular occupations. On the other hand, emergency medical technicians and paramedics had a location quotient of 1.0 in Shreveport, indicating that this occupation's local and national employment shares were similar.

These statistics are from the Occupational Employment Statistics (OES) survey, a federal-state cooperative program between BLS and State Workforce Agencies, in this case, the Louisiana Workforce Commission.

Notes on Occupational Employment Statistics Data

With the release of the May 2017 estimates, the OES program has replaced 21 detailed occupations found in the 2010 Standard Occupational Classification (SOC) with 10 new aggregations of those occupations. In addition, selected 4- and 5-digit North American Industry Classification System (NAICS) industries previously published by OES will no longer be published separately. Some of the 4-digit NAICS industries that are no longer being published separately will instead be published as OES-specific industry aggregations. More information about the new occupational and industry aggregations is available at www.bls.gov/oes/changes_2017.htm.

A value that is statistically different from another does not necessarily mean that the difference has economic or practical significance. Statistical significance is concerned with the ability to make confident statements about a universe based on a sample. It is entirely possible that a large difference between two values is not significantly different statistically, while a small difference is, since both the size and heterogeneity of the sample affect the relative error of the data being tested.

Technical Note

The Occupational Employment Statistics (OES) survey is a semiannual survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in the United States. The OES data available from BLS include cross-industry occupational employment and wage estimates for the nation; over 650 areas, including states and the District of Columbia, metropolitan statistical areas (MSAs), metropolitan divisions, nonmetropolitan areas, and territories; national industry-specific estimates at the NAICS sector, 3-, 4-, and selected 5- and 6-digit industry levels, and national estimates by ownership across all industries and for schools and hospitals. OES data are available at www.bls.gov/oes/tables.htm.

OES estimates are constructed from a sample of about 1.2 million establishments. Each year, two semiannual panels of approximately 200,000 sampled establishments are contacted, one panel in May and the other in November. Responses are obtained by mail, Internet or other electronic means, email, telephone, or personal visit. The May 2017 estimates are based on responses from six semiannual panels collected over a 3-year period: May 2017, November 2016, May 2016, November 2015, May 2015, and November 2014. The overall national response rate for the six panels, based on the 50 states and the District of Columbia, is 72 percent based on establishments and 68 percent based on weighted sampled employment. The unweighted sample employment of 82 million across all six semiannual panels represents approximately 58 percent of total national employment. The sample in the Shreveport-Bossier City Metropolitan Statistical Area included 2,026 establishments with a response rate of 74 percent. For more information about OES concepts and methodology, go to www.bls.gov/oes/current/oes_tec.htm.

The May 2017 OES estimates are based on the 2010 Standard Occupational Classification (SOC) system and the 2012 North American Industry Classification System (NAICS). Information about the 2010 SOC is available on the BLS website at www.bls.gov/soc and information about the 2012 NAICS is available at www.bls.gov/bls/naics.htm.

Metropolitan area definitions

The substate area data published in this release reflect the standards and definitions established by the U.S. Office of Management and Budget.

The **Shreveport-Bossier City Metropolitan Statistical Area** includes Bossier, Caddo, and De Soto Parishes in Louisiana.

Additional information

OES data are available on our regional web page at www.bls.gov/regions/southwest. Answers to frequently asked questions about the OES data are available at www.bls.gov/oes/oes_ques.htm. Detailed technical information about the OES survey is available in our Survey Methods and Reliability Statement on the BLS website at www.bls.gov/oes/current/methods_statement.pdf.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 1. Employment and wage data from the Occupational Employment Statistics survey, by occupation, Shreveport-Bossier City Metropolitan Statistical Area, May 2017

Occupation ⁽¹⁾	Employment		Mean wages	
	Level ⁽²⁾	Location quotient ⁽³⁾	Hourly	Annual ⁽⁴⁾
Healthcare practitioners and technical occupations	15,490	1.5	\$31.78	\$66,090
Dentists, general	70	0.5	39.71	82,590
Dietitians and nutritionists	80	1.0	26.74	55,620
Pharmacists	410	1.1	58.91	122,530
Anesthesiologists	(5)	(5)	132.92	276,470
Internists, general	(5)	(5)	98.54	204,970
Physicians and surgeons, all other	440	1.0	93.85	195,200
Physician assistants	170	1.3	45.32	94,280
Occupational therapists	170	1.1	42.27	87,930
Physical therapists	240	0.9	42.77	88,960
Respiratory therapists	350	2.3	25.03	52,060
Speech-language pathologists	120	0.7	34.94	72,670
Therapists, all other	(5)	(5)	21.50	44,720
Veterinarians	60	0.7	38.26	79,580
Registered nurses	5,250	1.5	29.34	61,030
Nurse anesthetists	120	2.3	78.35	162,980
Nurse practitioners	250	1.2	49.52	103,000
Health diagnosing and treating practitioners, all other	30	0.7	32.17	66,920
Dental hygienists	240	0.9	23.86	49,630
Cardiovascular technologists and technicians	(5)	(5)	16.99	35,330
Diagnostic medical sonographers	(5)	(5)	28.01	58,270
Nuclear medicine technologists	60	2.5	32.04	66,640
Radiologic technologists	370	1.5	22.40	46,600
Emergency medical technicians and paramedics	300	1.0	15.52	32,280
Pharmacy technicians	570	1.1	15.09	31,390
Psychiatric technicians	70	0.9	10.58	22,010
Surgical technologists	210	1.6	17.91	37,250
Veterinary technologists and technicians	180	1.4	12.78	26,580
Licensed practical and licensed vocational nurses	2,500	2.9	18.60	38,680
Medical records and health information technicians	430	1.7	18.53	38,550
Opticians, dispensing	70	0.8	15.77	32,810
Health technologists and technicians, all other	230	1.5	14.93	31,050
Occupational health and safety specialists	70	0.7	34.31	71,360
Healthcare practitioners and technical workers, all other	250	5.8	17.84	37,120

Footnotes:

(1) For a complete listing of all detailed occupations in the Shreveport-Bossier City Metropolitan Statistical Area see www.bls.gov/oes/current/oes_43340.htm

(2) Estimates for detailed occupations do not sum to the totals because the totals include occupations not shown separately. Estimates do not include self-employed workers.

(3) The location quotient is the ratio of the area concentration of occupational employment to the national average concentration. A location quotient greater than one indicates the occupation has a higher share of employment than average, and a location quotient less than one indicates the occupation is less prevalent in the area than average.

(4) Annual wages have been calculated by multiplying the hourly mean wage by a "year-round, full-time" hours figure of 2,080 hours; for those occupations where there is not an hourly mean wage published, the annual wage has been directly calculated from the reported survey data.

(5) Estimate not released.
